Context: This email can be used in 2 ways. You can use it to contact someone who has never heard of the brand or company. Or you can have affiliates send it to their list. For it to work, it will have to be used in conjunction with a free **guide, course, or Book** we can give away as a free bonus with/alongside TETROGEN.

The first paragraph is a personalized intro that affiliates on clickbank can use or owners of the email list can use to warm them up to the email. This would work as a great email swipe on clickbank.

For the guide, we can use the guide I'm putting together for the email list building freebie. We can get it printed out and send it along with their bottle of Tetrogen. Send me an email and we can discuss. This email KILLS IT for cold email and bought lists.
